## Proposed FY11 Schedule Summary

Guiding Principles for Calendar Development

1. The final calendar will be student-centered, research-based and practitioner tested and one that maximizes student learning time.

Reliable, regularly scheduled and manageable collaboration times across all divisions will be a part of the calendar.

Pre and post teacher workday schedule planned after prescribed student hours requirements are met.

4. The calendar will return to the general configuration used before recent construction.

5. Add days to the beginning of the school year rather than the end.

Recommendation for three-year calendar proposal-2010-2013, at a minimum, will be made
