## Curbside Recycling Programs

**Waste Management:** Available for single-family residences and duplexes in Steamboat Springs and Hayden (*Including City of Steamboat Springs, Heritage Park, Silver Spur, Steamboat II, Dakota Ridge, Strawberry Park, and Tree Haus*).

Call Waste Management at 879-2428 to be included in pickup program (every other week collection) Curbside Recycling guidelines are the same as the Green Machine listed above.

**Old West Sanitation:** Call Old West Sanitation at 824-8181 to be included in pickup program. Curbside Recycling guidelines require separating glass, plastics, paper and cardboard. Old West does not accept plastics 3-7.

## Household Hazardous Materials

### What are they?

- Oil-based paints, varnishes, thinners, strippers, solvents
- Cleaners, gasoline, antifreeze, kerosene, motor oil
- Herbicides, pesticides, fertilizers, poisons
- Aerosol cans, mercury, batteries

Hazardous materials usually have labels that say "caution, poisonous, harmful if swallowed, toxic, flammable, corrosive, combustible or dangerous."

### Why are they dangerous?

When poured down the drain, spilled on the ground, or placed in the trash headed for the landfill, these substances may eventually pollute water supplies. These hazardous materials are very harmful to humans and wildlife.

### How do I dispose of them?

The Routt County Board of Health has established a residential HHW program. Once per year residents may schedule a low cost (\$20.00) home pickup of household hazardous material up to 12 gallons. Electronic equipment may also be picked up at the same time, for a fee. Call Curbside at 1-800-449-7587 and they will set a date for your HHW pick-up. Businesses may call 1-800-449-7587 to inquire about service to their facility. Please call Routt County Environmental Health with any questions at 879-0185.

## Keep our Valley Beautiful

- Reduce: Buy items with minimal packaging and buy in bulk.
- Reuse: Avoid disposables, buy durable items and use reusable grocery sacks.
- Recycle: Purchase items made from post-consumer recycled materials to "close the loop" and recycle everything you can.

## Computer / Electronic Equipment

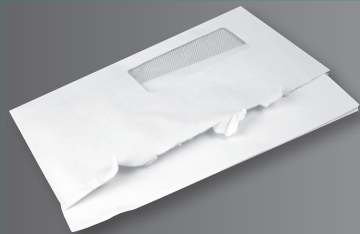

Electronic equipment that has outlived its useful life should be properly recycled to avoid environmental contamination due to lead and mercury. Businesses, academic institutions, and government agencies must comply with special rules for disposal of computer related equipment. Individuals and businesses are encouraged to contact one of the following entities for re-use or disposal of this equipment:

1. Twin Enviro Services- 879-6985 (*fee applies*)
2. G & S Mountain Recyclers -736-2364 (*fee applies*)
3. Waste Management - 879-2428 (*fee applies*)
